NOTE - When printing, select "Actual Size" to ensure an accurate measurement. Do not select "Fit to Page."

Size Indicator

HELMET MEASURING TAPE

A

B

INSTRUCTIONS

To find size of helmet worn, place measuring tape around widest part of head where helmet is worn-usually, about one inch above eyebrows. Then draw plain end of tape to meet at the other end and draw it snug, not tight. The first zone just outside and to the right shows the helmet size measurement.
